

DNA-CBL-COM

DB-37 to 4x DB-9 cable

10-Year
Availability
Guarantee

- Breaks out 37-pin connector on DNx-SL-501 and DNx-I2C-534 series boards into one DB-9 connector per communication port
- 30 cm / 11.8 inches long

The DNA-CBL-COM provides a convenient way to split the 37-pin connectors on the DNx-SL-501 and DNx-I2C-534 series boards into independent 9-pin DSub connectors. Each DB-9 maintains the I/O boards port-to-port isolation. The cables are 30 cm / 11.8 inches long (not including the actual connectors).
