General Description

The DNR-IO-FILLER is designed for installation into empty slots in the DNR-series RACKtangle chassis. The filler seals the chassis front panel and ensures proper cooling airflow within the chassis. There are 12 I/O slots in the DNR-12 series chassis and 6 I/O slots in DNR-6 series chassis. The rightmost slot in each chassis (slot 13 in DNR-12 and slot 7 in the DNR-6) has an I/O filler installed by default.

Technical Specifications:

Purpose	Seal chassis front panel ensuring proper cooling airflow
Number required	One DNR-IO-FILLER should be installed in each open slot.
Weight	0.06 ounce / 27 grams
Operating/Storage Temp	-40°C to 85°C
